

# STEEL BED FRAMES

## Made From Re-Rolled Rail Steel

Glideaway produces American made frames with re-rolled rail steel from Jersey Shore Steel - the strongest steel available with a lifetime guarantee. Glideaway's frames feature a high strength to weight ratio that resists twisting.

## Quick & Easy Assembly

With Glideaway's frame locking system, each steel bed frame easily snaps together in under 10 minutes. With interlocking steel pieces, Glideaway's steel bed frames provide strength and support without nuts and bolts.

## GLIDE-A-MATIC BED FRAMES

The Glide-A-Matic Steel bed frame is designed with unique features to guarantee lasting comfort and protection; provides ultimate strength and support. Headboard only frame with extra large headboard brackets.

- Features "Keystone" locking system, easy to snap together and provides double strength when steel pieces lock together.
- The "Ouchless" frame featuring deeply recessed legs for added safety; plastic end caps to protect bedding from snagging.
- Double rail center support on the Q, K, and CK for extra support.
- Two locking wheels on rug rollers.
