**Brand:** M

**Product Description:** Bold and dramatic and casual and inviting, the Wade Coffee Table makes an authentic and functional centerpiece for your living space. Crafted of Oak Solids in a dark wood finish, it has a 59 ¾-inch square shape and a chunky leg design.

**Status:** Active

**Finish:** Dark wood finish

**Features:** Square shape  
Chunky leg design

**Material:** Oak Solids

**Finish Construction:** M utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

**Frame Construction:** M uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture

construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
