Comfortable, clean shave

With SkinProtect Technology

Philips Norelco Shaver 2600 Wet & Dry Electric Shaver gives you a comfortable, clean shave for wet and dry use. With 27 self-sharpening ComfortCut blades and a pop-up trimmer, it's fully washable for easy use and excellent value.

Easy to use

- Pop-up trimmer for your mustache and sideburns
- 50 minutes of cordless shaving from a 1-hour charge
- One-touch open for easy cleaning
- Battery indicator to know when it's time to charge
- Anti-slip grip for a secure shave
- Convenient charging
- Travel pouch for convenient storage at home or on the go

A clean shave

- ComfortCut Blades for a comfortable, clean shave

Skin Protect technology

- 4D Flex Heads follow your face for a comfortable shave
- Wet and dry shaving at the sink or in the shower
- Anti-Corrosion Shaving System respects the skin

Sustainable

Highlights

ComfortCut Blades

27 self-sharpening blades comfortably cut each hair right above skin level for a smooth, even finish, every time. Our self-sharpening blades stay like new for 2 years.

Wet and dry shaving

Choose a convenient dry shave, or pair with your favorite foam or gel for a refreshing wet shave, even in the shower.

4D Flex Heads

Floating heads flex in four directions to maintain even contact with your skin protecting it from nicks & cuts.

Anti-Corrosion Shaving System

Our shaver blades are made from surgical-grade hypoallergenic steel to resist corrosion, prevent impurities, and protect your skin.

Pop-up trimmer

Refine and define your mustache and sideburns to complete your look with the pop-up trimmer.

50 minutes of cordless shaving

In just an hour, the durable NiMH battery is fully charged for about 16 shaves. In a hurry? A 5-minute quick charge gives you enough power for one shave.

One-touch open

The shaver head flips open at the touch of a button to rinse clean under running water.

Rubber grip

Never lose your grip. The ergonomic handle with rubber stays secure and comfortable, even when wet.

Battery indicator

Don't get caught with an empty battery. The battery indicator lets you know if the battery is low, empty, or charging.
