

RecoveryTherm™ Cube

\$149

Instant hot, cold and contrast therapy for targeted pain relief.

Effective pain relief and recovery.

Relieve aches and pains, reduce inflammation and muscle soreness, and maximize recovery with RecoveryTherm Cube. Choose between instant hot therapy, cold therapy, or alternate with contrast therapy – replacing messy, melting ice packs and scalding, inconsistent heating pads.

Fast, precise temperature control.

RecoveryTherm Cube is powered by our proprietary Cryothermal™ Technology, which delivers fast, precisely controlled heating, cooling and contrast therapy directly to the skin. Our temperature levels and duration of treatment are scientifically proven to be the optimal amounts needed for effective relief from aches and pains.

Targeted treatment almost anywhere on the body.

Relieve aches and pains wherever you need it most with RecoveryTherm Cube by holding it or attaching it to key areas with secure straps for on-the-go convenience.

Key Features:

- Precise, safe, and scientifically-calibrated temperatures using Cryothermal Technology
- Hands-free or handheld treatment with portable, convenient design
- Treat almost anywhere on the body with adjustable straps
- 3 scientifically-calibrated presets each with multiple precise temperature settings to treat your needs:
