

CALI[®] vinyl select

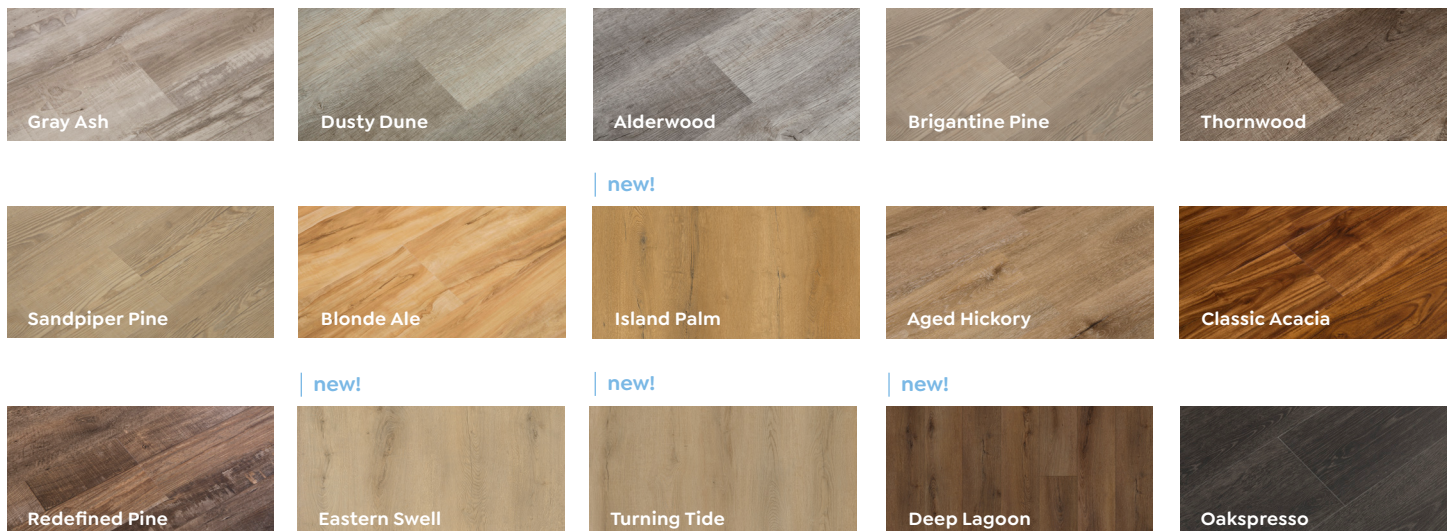

Eastern Swell

Where Luxury Looks Meet Commercial

This exclusive luxury vinyl collection delivers the same high standards of any CALI Vinyl floor for a better value. Offered only to builders, designers, and architects, it's the LVP for high-style spaces armed for stampede-level traffic. Made in our most popular colors, this special forces flooring is made for domineering strength, faster installations, and 100% waterproofing. Rugged to the bone, each plank is fortified by GeoCore[®], a fortifying backbone of limestone composite for superior structural stability.

Available Colors

Island Palm

Leaner & Meaner

Designed with the large-scale commercial installer in mind, the strongest drop-lock system in the industry is also easier to snap together, meaning flooring can be laid in half the time.

GeoCore: Bad to the Bone

This backbone of limestone composite resists indentation and delivers 50% better dimensional stability (less expansion and contraction), requiring no acclimation or transition pieces.

Fear No Moisture

A more muscular construction translates to 100% waterproof flooring over any type of subfloor, and zero acclimation even in kitchens, bathrooms, and sub-grade installations.

Construction	100% Waterproof GeoCore (SPC Composite)
Warranty	50 Year Residential, 15 Year Commercial
Grain	Light Wood Grain
Plank Length	48"
Plank Width	7-1/8"
Plank Thickness	4.7mm
