¹The Samsung BIA is a body analyzer that uses bioelectrical impedance analysis (BIA) technology to track body composition based on weight, body fat, body mass index (BMI), skeletal muscle, body water and basal metabolic rate (BMR) measurements. It is not intended to specifically diagnose or treat a medical condition. ²Galaxy AI features track data and require compatible Samsung Galaxy phone, Samsung Health app and Samsung account. ³Phone must be within 2 feet of user with snore detection enabled through Samsung Health app version 6.22 or later. ⁴Requires compatible smartphone. ⁵The ECG app is not intended for users with known arrhythmias other than atrial fibrillation or users under 22 years old. Users should not interpret or take clinical action based on the device output without consultation of a qualified healthcare professional. The ECG app is not intended to replace traditional methods of diagnosis or treatment. Requires compatible Samsung smartphone. ⁶Requires compatible smartphone and Galaxy Buds. ⁷Consistent with IP68 rating, water resistant in up to 5 feet of water for up to 30 minutes. Rinse residue / dry after wet. ⁸Average expected performance based on typical use. Results may vary. © 2024 Samsung Electronics America, Inc. All rights reserved.
