RECLINERS • SOFAS LOVESEATS • SECTIONALS

EFFECTIVE APRIL, 2024

We Are Best.[®]

Established in 1962 and based in Ferdinand, Ind., Best Home Furnishings is one of the largest furniture manufacturers in the world, committed to creating the best quality sofas, chairs, and recliners at the most affordable price. Family owned and operated, Best has more than a million square feet of manufacturing space in five southern Indiana locations. The combination of the company's six "Power of Best" standards — quality, speed, selection, family, made in the USA, value and over 60 years — are unmatched by any other upholstered residential furniture manufacturer.

POWER OF BEST®

The combination of the company's six

THE POWER OF

BEST

standards are unmatched by any other upholstered furniture manufacturer.

CRAFTSMANSHIP

Made in the USA*.

Since 1962, every Best Home Furnishings chair, recliner and sofa has been made right here in the heartland of America. We employ more than 850 hard-working, highly skilled craftsmen who take pride in paying attention to details and building furniture that lives up to its name. As a family-owned company, we're proud to provide jobs that support our community and our country. And when you buy a Best chair, sofa or recliner, you become part of that legacy.

SPEED

Made to arrive sooner.

At Best Home Furnishings, we know that when you finally find your favorite piece of furniture, you can't wait to see it inside your home. For one of the industry's fastest custom-order turnaround times, we keep every upholstery and wood finish in-stock and ready to use. Our inventory and manufacturing processes ensure your Best chair, recliner or sofa is delivered in weeks, instead of months-so you can settle in and enjoy it even sooner.

SELECTION

Made for you.

At Best Home Furnishings, we believe furniture should be all about you. It should fit your life, your style and your space. To help you find your perfect seat, our furniture is available in hundreds of sizes-from oversized Beast recliners, to petite easy chairs, to high-leg recliners that double as accent chairs. Our catalog includes a range of styles, from contemporary and modern, to formal and traditional. And once you find the perfect chair, you can customize your comfort with dozens of premium features, and make it match your décor with more than 700 leather and upholstery options.

POWER OF BEST®

Made to last.

At Best Home Furnishings, we build furniture that lives up to its name. Every one of our sofas, chairs and recliners is built and engineered to endure years of daily use. We start with kiln-dried, native hardwood frames, handpick every piece of wood and fabric, and use computerized scan-and-cut systems to eliminate defects. Our manufacturing process benefits from USA craftsmanship and checks and balances at every step. The result is furniture that remains comfortable for generations to come.

- We use sturdy frames with kiln-dried hardwood frame parts.
- Our computerized systems scan and cut out wood defects.
- Joints are doweled, screwed, glued, stapled and corner blocked.
- Deep penetrating truss plates are added to reinforce high stress points.
- We have 60 expert upholsterers with an average of 16+ years' experience.
- Every piece undergoes an 18-point sewing inspection checklist.
- Innovative Performa Weave® chaise pads are added to reclining furniture.
- Our extensive power recliner testing far exceeds industry standards.

VALUE

Made to make sense.

More than 60 years ago, our founders committed to building high-quality furniture that lasts for decades but doesn't require years of financing. It's a simple philosophy, but we've stuck to it for generations-and it even inspired the Best Home Furnishings name. Thanks to strict production standards, close vendor relationships, and efficient manufacturing, we keep our prices competitive without sacrificing quality. Because we believe your investment should make sense-today, tomorrow and for years to come.

Made with love.

FAMILY

The Lange family started Best Home Furnishings in 1962 with a commitment to engineering quality products at an affordable price. While our founder, Clem Lange, is in the American Home Furnishings Hall of Fame, and we're a top 15 furniture supplier, we haven't forgotten our roots. We're still a family-owned company - now its third generation - and we're still dedicated to making the finest furniture possible. Every dealer, supplier and customer is seen as an extension of our family.

RECLINERS The only recliners worthy of being called Best.

Whether it's kids, pets, or your everyday lifestyle, family friendly performance fabrics by Best Home Furnishings will keep you covered. The construction on the inside and cleanability on the outside will ensure that new look, every new day. Best offers one of the largest selections of performance fabrics in the industry. We understand accidents happen, but stains shouldn't have to.

Crypton and Opti•Clean's technology is a performance system encasing every fiber to ensure cleanability. This protective layer deters liquid from penetrating the surface of the fabric, and allows time for clean up before it becomes a stain. These fabrics are soft to the touch, family friendly, easy-to-clean, and stain resistant.

Revolution, Fortress, and Sustain performance fabrics are made in the USA with up-cycled fibers and have no chemical treatments. They are virtually unstainable, easy to clean, and extremely durable; yet beautiful and soft. They are resistant to fading from the sun, and are considered bleach safe.

Choose Your Base*

Our Best. You can make it better.

*Refer to the inside pages or the price list for availability of options on specific recliner models.

Power Recline

Effortlessly recline at the touch of a button. Our smooth, whisper-quiet power mechanism will sweep you off your feet in a matter of seconds.

Custom Comfort

Look for this icon that features a zipper in the upper or lower back for access to the premium cushioning fiber. This allows you to add more for a firmer comfort or take some out for a plusher feel.

Coil Spring Cushioning

Cushions that feature coil spring cushions feature coils that are encased in fabric for enhanced resiliency, support and to eliminate permanent coil-set. The cushion is then wrapped in a high-resiliency polyester fiber for extra cushioning, comfort and durability that results in 21% less breakdown. Consistently comfortable, consistently quiet.

<u>Power Tilt Headrest</u>

Take relaxation to the next level, by adding the Power Headrest. This feature adjusts for superior comfort and support where you need it most, all at the push of a button.

<u>Performa Weave®</u>

Performa-Weave, is an innovative seat cushion material exclusive to Best Home Furnishings made from a breathable matrix of synthetic fibers. Performa-Weave keeps your recliner cool and comfortable from seat to feet. Its unique looped construction provides long-lasting resilience and spring-like comfort.

Power Lift & Recline

The recliners in the UpLifting Comfort Series[®] offer comfort, customization and craftsmanship – plus the added boost of a power lift.

<u>Comfort Dial</u>

Comfort. Dialed in. Our innovative, easy-to-use Comfort Dial allows you to simply operate your reclining furniture at the simple turn of a dial. Rotate back to open your recliner to the specified location. Rotate forward to adjust or close your recliner. A quick-click switches to Power Tilt Headrest mode where you can adjust the top-back for the ultimate in head and neck support. Hold the button to return in to the home sitting position. The Comfort Dial also features a USB charging port.

<u>Best-Max®</u>

Features a 2.5 lb. High Resiliency, contoured urethane foam cushion, additional heat-tempered sinuous wire seat springs, and zipper access in chaise lounge for one of the most advanced recliners available. Best-Max take the Best and makes it better.

USB Charging

USB chargers featured in your recliner have extensively been tested to charge your mobile devices all while enjoying a movie, playing games or enjoying your favorite apps.

<u>Heat/Massage</u>

At the push of a button, allow your recliner to warm and relax tired muscles. Control the massage intensity and speed, target select muscle groups, and vary the heat settings.

Over 60 years ago, Best Home Furnishings was founded in Southern Indiana, a place with a heritage for building furniture, and a reputation for a strong, detailed work ethic. Still family owned and operated, we take pride in offering over 700 cover options, on a wide array of products, and built in the industry's shortest turnaround time. We take pride in the craftsmanship of a finely upholstered chair and the detail of tailored skirts sewn in our Ferdinand factories. Jobs, strength and security for our country. That's the power of Best Home Furnishings.

BUILT TO LAST Quality materials and constructed to last in the United States of America.

Zipper access for adjusting of cushioning fibers* Best's proprietary blended polyester fiber seating system utilizes over 2 million pounds per year of recycled polyester fiber blended in Proprietary Space Saver[®] reclining scientifically monitored ratio with fiber of complementary feature properties to create a composite fiber system superior to single fiber Convenient removable backs for systems but with a recycling ease in handling benefit to boot. Easy-access lumbar Five 8-gauge heat-tempered adjustment sinuous wire seat springs connected side-by-side with two Premium reclining 16-gauge coated steel wires mechanism provides additional lumbar Durable kiln-dried hardwood support & a no-gap frame parts processed from design between seat company owned and operated and back when reclined facilities. Power & Manual Lumber suppliers employ **Recline Options** modern conservation practices Available to minimize environmental impact and enhance Lower seat foam reforestation processes. utilizes 1.8-2.5 HR technology compression foam Tenon and mortise joints secured by steel truss plates Adjustable kick-out tension Engineered hardwoods utilize CNC bandsaw for accuracy highest yields Multitude of base options to suit your comfort preference

Premium six-bar front linkage provides longer & taller kick-out than standard mechanisms. Heavy-duty 5-9 gauge steel, tested to outperform competition. Joints are reinforced with hardwood blocks utilizing wood glue, staples, and screws. Truss plates ensure the strongest frame construction. Exclusive Performa-Weave[®] chaise pad technology provides a more durable, comfortable and cooler seating experience than standard foam.

Comfort Sync[™]

State-of-the-art Comfort

Sit back and relax in next-level comfort with our state-of-the-art Comfort Sync[™] system. Developed in conjunction with industry-leading experts Leggett & Platt, our proprietary Comfort Sync system has three integrated features that make Best reclining furniture an instant favorite.

The Comfort Sync[™] Trifecta

Lay it all out there

The Comfort Sync system is engineered to lay back nearly flat, and is available in three base options: SpaceSaver®, Swivel Glider, and Rocker. As you recline, the chair synchronizes with your body for continuous support of key comfort zones. Our SpaceSaver® base allows some recliners to be positioned as close as 2" from the wall. *Swivel Glider and Rocker bases require more space for movement.*

Lumbar love

Our upgraded lumbar feature contours to the natural curve of your lower back by filling the gap between the chair and your back as you recline. This helps to relieve key body pressure points, encourage better posture and support your entire body for restorative relaxation.

Kick back and relax

Our longest leg support yet allows for even distribution of your lower body weight to help improve circulation and reduce stress to your legs. The footrest moves when you want it to and the reclining action moves in sync with your body. This allows for seemingly infinite reclining positions, including the TV watching position or a nearly flat layout. This provides optimal head, neck, back and leg support whether you're reading, watching movies or napping.

Discover the difference Best research and engineering makes.

Best drives the industry forward by working closely with home furnishings leader, Leggett & Platt, to design and engineer exclusive features of our premier reclining mechanisms.

With our patented back movement, the seat swoops forward and up as you recline, creating extra lumbar support. And our patented geometry allows for close-tothe-wall clearance.

> A steel recliner rod synchronizes the recline mechanism linkages on both sides to provide a smooth, uniform reclining experience.

Our leg extension features an advanced six-bar front mechanism linkage to provide a longer and taller kickout than standard fourbar mechanisms.

The heavy-duty Comfort Sync system is assembled in the USA using a combination of steel components ranging from 5 to 9 gauge. With a Steel-to-Floor mechanism for stronger, more stable chair base.

Comfort you can count on.

Comfort Sync is engineered with the perfect balance of comfort and durability, because once you find the perfect recliner; you'll want to enjoy it for the years to come. Our sturdy steel construction supports a broad range of shapes and sizes, while the smooth, gentle motion effortlessly follows your every move. Fully customize your comfort by choosing from one of our three base options. The SpaceSaver® allows you to position select recliners as close as 2" from the wall. Our swivel glide base offers a full 360 spin motion along with a soothing glide action. The Rocker base option features a gentle rocking motion perfect for relaxing after a long day.

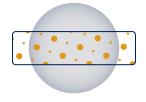

Taking the Best and making it **better**.

How do you take the best and make it better? For over 60 years, Best Home Furnishings prided itself on building motion furniture with kiln-dried hardwood frames, heavily reinforced joints – utilizing truss plates in many instances, an exclusive, premium all-steel reclining mechanism, and made in the USA craftsmanship. Best-Max takes the structural integrity and comfort to new levels.

In the seat core, a higher density, 2.5 pound foam cushion is breakdown resistant. Built and tested to withstand years of everyday use, it'll provide more comfort and resiliency. Not four, not five, but six seat springs! Six, no-sag, sinuous wire seat springs are strategically placed in the "seating zone" ensuring maximum weight distribution that will instill a lifetime of comfort. Last, but not least, zipper access in the back of the chaise lounge provides a custom comfort opportunity for users to adjust the pillow fiber cushioning in the seat that makes it most suitable for them. Add more for a firmer seat. Take some out for a softer, cushier feel. With the Best-Max seating system, you get a recliner that's not just better, but the BEST.

*Leather version features brass tacks on facing cap

ximate.

The only recliners worthy of being called Best.

Tested for up to 500 pounds* of everyday use and features a 7-Gauge Steel Mechanism!

Frame: Each recliner is constructed of 1 1/8" hardwood seat frame joined together by six 2 1/2" lag bolts, doweled joints and glue.

Mechanism: The heavy-duty 7-gauge all-steel mechanism is designed to withstand up to 500 lbs* of everyday use. Every recliner features adjustable kick-out tension and is assembled and tested to assure smooth, reliable comfort.

* Beast Space Saver® recliners tested up to 500 lbs. Beast Rockers and Power Rockers tested up to 375 lbs. **Springs:** 16 bar coils in the seat spring unit are heat-tempered for durability and long-life. A double lumbar spring design provides added support where it is needed most.

Cushions: Cushions are constructed of 2.3 - 2.5 density

premium HR foam for comfort you have to feel to believe.

Features: A clever removable back provides for ease in handling and placement in your home. The unique "Easy Access" back design allows for repositioning or addition of polyester fiber that keeps this recliner looking good for years to come.

Generous comfort. Smooth operation. Unmatched quality. The only motion sofas worthy of being called Best.

The only sofas/loveseats worthy of being called Best.

REMOVABLE BACKS WITH EASY-ACCESS TO LUMBAR SUPPORT

Removable seat backs allow for ease in transportation and handling and customers have access to customize the comfort level of the lumbar support.

ADJUSTABLE KICK-OUT AND BACK TENSIONS

"Gravity activated handle-assist" enables customer to adjust ease of operation.

HIGH-DENSITY FOAM/HIGH-LOFT PREMIUM POLYESTER CUSHIONING

Plushest, most comfortable seat in the industry.

DOWELED, CORNER BLOCKED, GLUED AND SCREWED

Multiple processes, occasionally including truss plates, ensure solid, long-lasting joints.

SUPERIOR SPRING CONSTRUCTION

Sinuous wire springs are cross-wired to prevent sagging. Spring clips are coated with polypropylene to prevent squeaks.

VERSATILE STYLE

Wide selection of fabrics and leathers with styles to match every taste and décor.

Deluxe Options*

Power reclining sofas and loveseats make relaxing as easy as pushing a button. Whisper smooth power reclining functions quietly move you into an infinite number of comfortable positions at one of the fastest recline speeds in the industry.

The Space Saver[®] combines features no other recliner can match:

- Closer Wall Proximity
 Longer Footrest Extension with Maximum Leg Elevation
 - The One & Only Space Saver® Recliner

Performa-Weave[™], is an innovative seat cushion material exclusive to Best Home Furnishings made from a breathable matrix of synthetic fibers. Performa-Weave[™] keeps your recliner cool and comfortable from seat to feet. Its unique looped construction provides long-lasting resilience and spring-like comfort.

Features a 2.5 lb. High Resiliency, contoured urethane foam cushion, additional heat-tempered sinuous wire seat springs, and zipper access in chaise lounge for one of the most advanced recliners available. Best-Max take the Best and makes in better.

Look for this icon that feature a zipper in the uppper or lower back for access to the premium cushioning fiber. This allows you to add more for a firmer comfort or take some out for a plusher feel.
