Step 1

1.1

Remove plastic caps from (B) legs, and attach to (A) chair using one (H1) washer per leg.

Once legs are secure, turn chair upright to check if level.

If chair is not level, unscrew the shortest leg and add an additional (H1) washer.

Repeat as needed.

Please note: you may have extra (H1) washers depending on how many you use to level the chair.
