New World Oak

European Oak, California Character

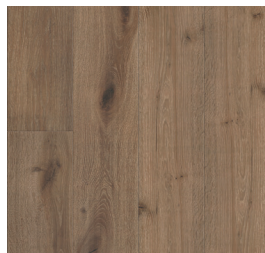

Wine lovers know a meritage as a French Bordeaux style blend made in California. Similarly, this premiere Cali Hardwoods collection sources high-end European white oak from France's Ardennes Forests, and it infuses it with an eco-minded California character. This timber boasts a provocative grain and is stained to perfection to draw out a range of visual intricacies. Veneers are 4mm thick and Euro sawn to accentuate an array of colors and textures. Planks are responsibly sourced, extra wide, highly varied, and green to the core--stabilized by a foundation of cross-constructed, sustainable wood.
