

# CALI<sup>®</sup> laminate mavericks

## Bold Boards for Bigger Waves

Dive into the Mavericks collection, where the durability of waterproof flooring meets epic hardwood realism. Presenting CALI's longest planks ever, this luxury laminate collection draws inspiration from the rugged Northern California coastline and legendary surf spot known for its massive waves. Mavericks floors embody the strength and beauty of the natural world with extra scratch resistance, authentic knots and grains, and matte surfacing designed to capture the understated charm of actual oak. Planks are backed by attached acoustic padding, for added sound insulation and better comfort underfoot – creating spaces that are as peaceful as they are beautiful.

### Smarter Than Wood

Waterproof laminate planks deliver the look and texture of real oak hardwood, but are more lightweight, sound insulating, and far easier to install and clean.

### Boosted Scratch Resistance

A highly durable surface with a premium AC4 rating makes CALI's upgraded planks better protected from pet claws, high heels, and all the wear and tear of busy households.

### Healthy Home Flooring

Mavericks planks are FloorScore certified and regularly tested to ensure low VOC levels for optimum indoor air quality and healthy homes.

<b>Construction</b>	Laminate top layer with high density wood core
<b>Design</b>	Wood
