Product Description: Warm and rustic with a silhouette that evokes the weight, heft and heritage of beam construction, the Big Sky Buffett is crafted of Pecky Hickory Veneers with a solid wood edged top. The buffet is finished in Vintage Natural, an organic finish that reveals the authentic knots and wood grain patterns. The four doors have soft-close hinges, and there's one self-closing drawer and one adjustable shelf behind each pair of doors. The right side drawer has a removable felt liner and the left side drawer has a removable silverware tray. The interior is finished in Charred Timber, inspired by the restorative beauty of a fire-ravaged forest.

Collection Features: The natural beauty and near mystical experience of the American wilderness inspires a spirited collection from Hooker Furniture, a celebration of dramatic vistas and the freedom to roam, a land of rough-hewn timber and towering snow-capped peaks, boundless plains, and cool, clear mountain lakes. Hooker brings home a dream of wide-open spaces and a life lived in tandem with iconic landscapes with furnishings that evoke the weight, heft and heritage of post and beam construction, the mark and artistry of true craftspeople, and substantive, thoughtful designs right for today. Watch for warm, rustic, hickory veneer, and rich finishes like charred timber, dusk, and avalanche, organic textures, hand-forged hardware, and classic moldings for the traditional bent will gravitate toward the clean lines of waterfalls.

Let's chat

Right side drawer has removable felt liner
Left side drawer has removable felt silverware tray
One adjustable shelf behind each pair of doors
Ventilated back panel
Levelers

Material: Pecky Hickory Veneers and Solid-Wood Edged Top

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
